For other Anne Frank titles with English
and Malayalam subtitles, see theEnglish
and Malayalam subtitles page. The text of
the English version is published in the
first of the two (unauthorized) editions of
Anne Frank's diary, The Diary of a
Young Girl, where it comprises a single
entry by Anne dated 2 February 1942.
The undated English text published in the

second edition, *The Diary of Anne Frank: The Revised and Expanded Edition*, comprises a further 27 entries, including the one from the first edition that is also included in the second edition (and others which Anne later deleted). References

magazinesQ: What character types are

supported by `JSON.stringify()`? I know

that this is a basic question (in so much as there are plenty of answers on Stack

Overflow - including this one - that

mention they support the stringification of many types, but I haven't found anything that explains what the various types supported are. This question didn't help as it simply notes that all primitive values are supported, but doesn't state what those types are. In fact, it says that more information is available here. However, I did not locate what that information is. A: Here is the standard document with information about what types are supported. A: It's in the specification. If you really want a list of all types supported, you can look at this question on StackOverflow which gives a partial answer for various JavaScript engine implementations. Q: How to get list of changeset of modification that was
