Portable utility that delivers a speedy solution for finding the compression rate of folder/subfolder (and its items) and for compressing and decompressing selected items. Easily compress and decompress an item by right-clicking on it. Compress or decompress multiple items at the same time. Refresh the directory contents. What's new in this version: Installed per-user language packs. The campaign has said it will spend about 61m (NZ\$1.92m). Labour has also been accused of fiddling its election spending returns by using grants from the tax haven of Jersey to pay for advertising, cleaning and catering on its campaign bus, according to the Financial Review. Labour's lower house MP Mike Williams, who was one of the donors, has been buying shares in the Jersey-based company that provided the shuttle bus. A NZ Electoral Commission spokesman told Reuters the Department of Internal Affairs had not sought approval to make any expenditure on the campaign. SUPPORTERS IN OTTOHEITE Ozpin's team have taken to the streets in multiple private groups on Facebook asking supporters to rally in their areas in support of Ozpin and his team. The alliance of groups - which mostly feature comic book characters - differ from the official fan groups, which are largely run by Ozpin himself. Marketing Vice President Sean Macdonald, who is one of Ozpin's key players, told Reuters Ozpin's team was already targeting supporters of the groups for recruitment. "We're recruiting straight away," Macdonald said. "We're targeting the supporters of the people on Facebook who created the groups." Ozpin held a series of meetings last month with a group of supporters that included future key players and senior members of the administration team including Macdonald and Digital Action Manager Nathan Maynard. "That was a great start to get the people who wanted to get involved and start coordinating," Macdonald said. Otto hosted a recruitment event at the Creative Arts Museum in Wellington, New Zealand's capital, on July 30, according to a photo posted on Facebook on the event page, "Ozpin's Army". "This weekend is our recruiting week, which means all of our top players and their support staff will be on-hand to help people get

Portable NTFSRatio Download

Portable utility with a clear-cut interface There's no installation involved, so you can extract the program files to a custom location on the disk or straight to a USB flash drive, in order to seamlessly run it on any computer with minimum effort and no previous setup. It doesn't modify Windows registry settings, need DLLs to run, or create extra files on the disk without permission. Once launched, the app asks you to indicate a folder to compute its compression rate. It makes all the necessary calculations automatically, shortly revealing the size along with the compressed size and ratio of each file and subfolder. Easily compress and decompress items Portable NTFSRatio gives you the possibility to easily compress or decompress an item by opening the right-click menu. Batch processing is supported, which means that you can compress or decompress multiple selected objects at the same time. The compressed ones are highlighted in blue. Further features refreshing the directory contents if any changes were made in the meantime printing the filelist help documentation "if any changes were made in the meantime" seems to be an innovative feature. I might try this to monitor my files and see if it really works that well. @Romasim - I think the feature is only for those who update the software regularly or for those who use their computer in multi-user. This way you can refresh the directory contents if any changes were made in the meantime, by scanning/comparing two files at a time. "if any changes were made in the meantime" seems to be an innovative feature. I might try this to monitor my files and see if it really works that well. Click to expand... I never used NTPS Properties in the past, so this feature will come as a bonus for me. I think it's better not to paste the entire file list, as you can use the "Update List" menu to see the changes and update. After some moments the app froze, so it's not clear if it was a glitch. I like the menu a lot, it's very neat. I also love the concept of using directories, it's not as easy to remember as using specific filenames, and it's very much more systematic. After some moments the app froze, so it's not clear if it was a glitch. I like the
