----- "No Plan B" is a platform-shooter FPS game developed by Gamelion. "No Plan B" aims to expand the gameplay of the 2012 Gamelion remake, Maximo: The Games. Having a similar gameplay to the predecessor, Maximo: The Games, "No Plan B" is a first person shooter. The combat can be fast-paced and furious, but the game provides a good challenge for the experienced players. "No Plan B" presents a complex and varied environment, in which the player can be led through several paths with different challenges. At the beginning of each playthrough you will find yourself in a new environment, with a new set of weapons, enemies and traps. With an FPS gameplay and a length of 4 + 1 hours, "No Plan B" is an interesting and accessible shooter.

In this place, you can find the two NPC characters. KEY FEATURES - The game has a unique FPS gameplay and a branching level design. - Several characters can be unlocked during the game and can become the main character. - Our aim was to create a complete environment with a high level of

detail. - The game is suitable for players at all levels. - There are lots of cool weapons and items. - A random map generator is based on our engine architecture. - This random map generator is also usable for our future games. - From a technical point of view, "No Plan B" is a very well balanced game. - The character can use gestures when shooting and moves during combat. - There are at least 10 different enemies per level. - The enemy AI and the movement are calculated per the position of the camera. - A destructible environment, awesome traps and the use of the environment as the player's weapon are great ideas. - The combat has always been a highlight of "Maximo: The Games". - To keep it up, we have tried to have the combat dynamic and very well balanced
