Feb 20, 2014 - No matter how many times you dream it, your first love is never quite the same as the one you actually found. If you have ever fallen in love with someone and had dreams of them loving you back, think of this movie as a gateway to a whole new set of romantic. The year is 2718 and the Earth is dying. As Earth's atmosphere withers, its remaining oxygen belches into space, creating a poisonous mist that turns everything it touches into ghastly, ravenous zombies. In order to save mankind, the only person who can stop Earth from becoming extinct must be thrust. In 2263, the world as we know it is over. The sun has gone supernova, destroying the ozone layer and turning all but the upper reaches of the atmosphere into a swirling blanket of smog. The toxic dust coats the Earth's surface, turning everyone into monsters that prey on each other in this post-apocalyptic future. Humanity's final hope rests with eight young astronauts. In this mesmerizing, imaginative science fiction adventure, an astronaut must travel to an artificial habitat on the moon to decide the fate of humanity..
